

late attorney-general of the United States, contributed an article to the last number of the

great cost of the high school building, and the way of architects is to exceed estimates. This, at least, is plainly the way of Mr. C. He played a similar game in Oakland because here, and dissatisfaction therewith among the causes which gave him to us was advertise his "way" as we pass him of

Among the characteristic expressions

with the Mexican states. But a w
claims to have traveled much in Mexi
that the expectation of a prosperous
to be built up with the Mexican peop
be realized. He asserts that the Ame
roads constructed through the co

the people have no use for railroads; the

The following places have been noted:

First Ward—Louis Kuhn's shop, post office, and a street.

Second Ward—Corporation shed on the corner of Third and Second streets.

Fourth Ward—Between Yamhill and Main streets, one door south of the old J. Henson sawdust pile. The present geologic R. M. of said day and date at 1904.
